Professional Summary

Computer Science undergraduate (2027) with hands-on experience in Core Java, web development, and data analytics internships, building interactive web apps (HTML, CSS, JavaScript) with a strong foundation in OOP, DSA, and core CS concepts.

Experience

Core Java Intern (Virtual) — upSkill Campus

Jun 2026 (4–6 weeks)

In collaboration with UniConverge Technologies

- Applied Core Java and OOP concepts to build a console-based Expense Tracker, implementing expense recording and management using object-oriented design.

Data Analytics Intern — Dreamvessels Technology Pvt. Ltd.

Sep 2 – Sep 30, 2024

Integrated Campus Internship

- Used Advanced Excel and Power BI for data analysis, dashboard creation, and business reporting.
- Built and maintained interactive dashboards to present business data and support data-driven decision-making.

Projects

Intervia — AI Mock Interview Platform

HTML, CSS, JavaScript, Gemini API

- Built a browser-based AI mock interview platform for campus placement preparation using the Gemini API.
- Implemented topic- and difficulty-based question generation, answer evaluation, feedback, and scoring.
- Deployed the application using GitHub Pages and maintained the source code on GitHub.

Skills

Technical Skills

Languages: Java, JavaScript

Web: HTML, CSS, Bootstrap

CS Fundamentals: OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Tools: Git, GitHub, VS Code

Data & BI: Advanced Excel, Power BI

Soft Skills

Communication • Teamwork • Problem-Solving • Adaptability

Education

I.E.C. College of Engineering & Technology

B.Tech, Computer Science & Engineering

2023 – 2027 (Expected)

CGPA: 7.93/10 (through 6th semester)

Certifications

- Generative AI Essentials** — TCS iON, 2026.
- AI and Cybersecurity Awareness** — TCS iON, 2026.

Achievements

- Awarded a **Rs. 20,000 merit scholarship** during the first year of B.Tech.
- Participated in **Game of Code 2K25**, a college-level coding competition.
- Actively practicing **Data Structures & Algorithms in Java** on LeetCode.
